

ReadyConferenceSM

ReadyConference gives you the power to conduct automated conference calls on your own. Perfect for on-demand and scheduled meetings, ReadyConference includes feature-rich audio quality and moderator controls that let you conduct your own conference calls in a convenient, quick and cost-effective manner.

ReadyConference gives you a permanent dial-in number and passcode you can use any time, from anywhere - 24/7.

Scheduled ReadyConference offers a new dial-in number and participant passcode for every conference and replay options when you reserve your conference via the Web.

PremiereCall

PremiereCall delivers a suite of operator-assisted services for large conferences and high-profile events. PremiereCall can accommodate more than 3,000 participants and features a conference support specialist to gather participants online, conduct a roll call and offer assistance during the call. For larger events, PremiereCall offers event management services that include a dedicated team and a professional announcer to help guide your event.

PremiereCall is in demand in a variety of industries from healthcare to technology.

For any business, PremiereCall is ideal for:

- Press conferences
- Quarterly earnings calls
- Investor relations events
- Focus groups
- Product rollouts
- General client or associate communications

Web Collaboration

Web collaboration (Internet conferencing) essentially combines the convenience of audio conferencing with the collaborative capabilities of the Internet. That means you can view and develop visual documents on the Web during your conference call. Businesses around the world are turning to Web collaboration as a powerful and efficient way to increase productivity, eliminate downtime caused by travel and speed the pace of their business.

Premiere Conferencing is a global leader in Web collaboration. We offer a suite of services designed for conferencing needs of every kind—from small, impromptu working sessions to major media events. Generally speaking, VisionCast is ideal for larger events in conjunction with PremiereCall, ReadyCast and ReadyConference for smaller work sessions, and SoundCast for simply broadcasting your conference over the Web. Click on the links below to learn more about how each of these services can help you harness the power of Web collaboration.
